# USING OFFLINE NAVIGATION IN THE ALLY V2 APP

#### STEP 5.

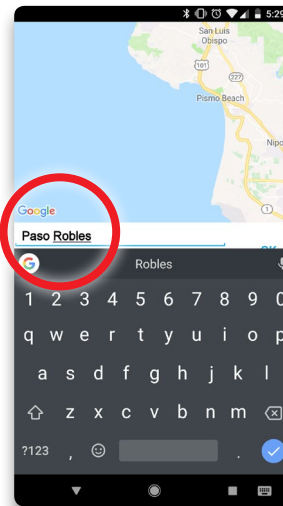

Select map area and click "Download." NOTE: you can download up to 100mb at a time. Visit [http://www.lezyne.com/gpsroot/gps\\_offlinemaps.php](http://www.lezyne.com/gpsroot/gps_offlinemaps.php) for larger maps and faster transferring

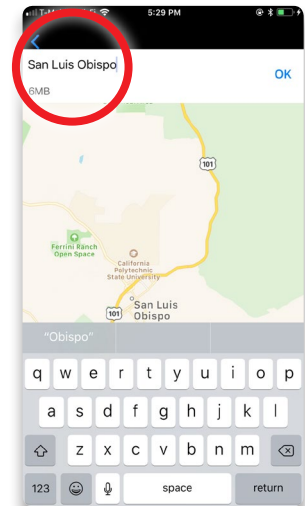

Android

iPhone

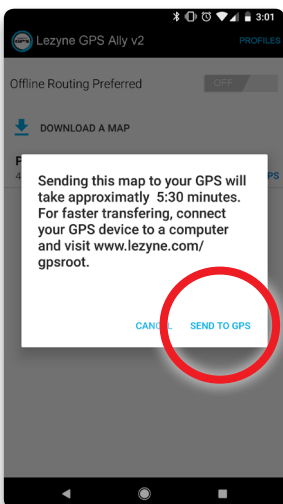

Android

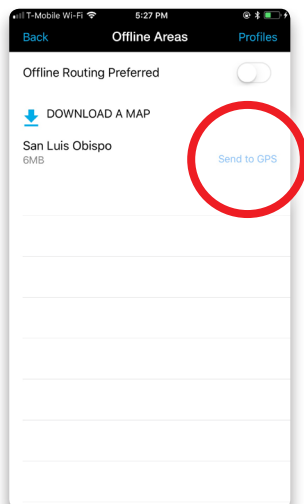

iPhone

#### STEP 7.

When the map has finished downloading click "Send to GPS" (Mega C and Mega XL GPS Only)

Android

iPhone

#### STEP 6.

(Optional) Click on the downloaded map to rename it

Your Mega GPS device will now display a map.

Full offline navigation is now available for the downloaded area. NOTE: "Offline Routing Preferred" must be toggled to 'on' for navigation to work while offline.

#### MAP OPTIONS

- Tap profiles to customize how the app searches for routes. NOTE: Routes will be created in order of the map profiles you have selected
- Tap "Map Style" and change to Offline Maps for more detailed searching (iPhone only)
